

MBA Intro Script

With thirty years of Third-Party Administrative expertise, MBA Benefit Administrators have been the industry leader ever since. And our same top management pioneers are still here.

It all started in 1987 with a commitment to provide a reliable benefit solution that brings down the escalating costs of claims while providing transparency in hospital and provider pricing. Since then, we've been at the forefront of some of the most creative and innovative healthcare solutions, like physician-only PPOs.

After recognizing that PPO networks under contracts with facilities were able to hide significant pricing errors, MBA pioneered the physician-only PPO network, separating it from the facilities, which now provides savings to PPO members.

We have also been using Reference-Based Repricing (RBR) since 2012, while others are just now catching on. Through our partnership with ELAP Services, we deliver drastically reduced healthcare expenditures with a three-part strategy: claims auditing, re-pricing, and fiduciary protection.

MBA is a name you can trust and depend on. After three decades, our commitment to giving employers control over their healthcare plan spending remains true today. See for yourself what makes MBA different. Contact us today at (435) 670-5923 or send an email to:
