

# Wholesale Electricity

## You do have a choice!

With the coldest January in 10 years, the surge in heat demand sent electricity prices soaring as a result of rising natural gas prices. But you have a choice when it comes to purchasing electricity.

When you partner with American PowerNet to purchase on the wholesale market, you can save thousands of dollars each year when you become your own self-serving (virtual or actual) electric supplier. With our award-winning services, you get:

- Independent power wholesale management
- Green energy solutions
- Transparent fee structure

Take control over your electricity costs and [schedule a free consultation](#) today.
